

# Coms-Pro

## Central Office Management Software

**Coms-Pro Central Office Software Is The Focal Point To Facilitate The Information Flow Throughout MiChoice School Food Service Accountability Solutions**

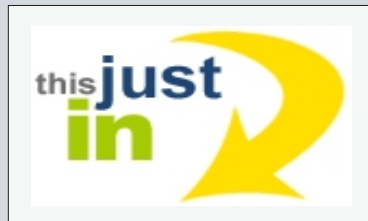

## What is Coms-Pro Professional?

As an all-inclusive product, it serves the district's food service department by providing a common data source for centralized free and reduced application processing, district meal accountability and government reporting.

Coms-Pro is scalable from a single user to a client/server configuration making it flexible for any size school district.

This robust interactive software allows for bi-directional transfer of data between the central food service office and each campus over the school districts wide-area network. Coms-Pro can effectively store and distribute the data in "Real Time" and becomes the central point for creating, finding and sharing the information, as you need it, when you need it.

Used individually or combined into a fully integrated suite of products, Coms-Pro software gives you the flexibility to apply the system to meet your current and future needs.

- ✍ Revenue & Expenses (Profit/Loss)
- ✍ Meals Per Labor Hour
- ✍ Labor Cost Per Meal
- ✍ Expenses/Revenue Per Meal
- ✍ Plus Much...Much...More
