

# Coms-Pro Limited Software

This robust software program is an ideal companion to MiChoice's eMeal Point of Sale Software. It allows remote locations (Via LAN/WAN) to connect in "Real Time" to the campus POS database to update patron meal account balance and view POS reports.

- Networks to Campus Site eMeal POS Software (Single Line or Multi Line Configuration)
- Can be installed on any PC within the District's LAN/WAN
- Allows for accepting prepay meal money
- Refunding prepay meal account money
- Setting restrictions on meal account ala carte sales
- Generates Student/Adult Historical Meal Purchase Report
- Automatically updates the patron meal accounts in the cafeteria eMeal Point of Sale database in "Real Time"
- Run Campus Site POS Reports
